Update: Submitted Monthly Police Report: Police Chief Boldebuck reviewed the monthly report, including the Village drug drop box, Brodhead National Night Out event, and the Way indictment.

General Discussion/Recommendation: Non-reserve Class B Liquor License Criteria: Administrator Gadow noted that the Village has received four (4) applications for two (2) available Class B Liquor Licenses. Anthony Edge indicated that he had no issues with the guidelines as approved by the Village Board. Denise Wright asked Lori Stein of Cow & Quince to clarify the alcohol premise description. Police Chief Boldebuck asked if Cow & Quince was 300 ft away from Grace Church, and perhaps given the geography of the downtown, this item should be removed from the license application. The Committee asked each application to further describe their request for a Class B Liquor License:

1. Fat Cats Coffee Works, LLC: Anne Miller stated that they held a wine and beer license for three years, and were looking for the full liquor license to round out their licenses, and lift the limit on what they could serve to patrons. They have tried live music before, but it has not worked in their space. They would like to round out the dining and drinking experience by being able to serve liquor. She indicated that if approved, it would not have an impact on hours of operation or staffing. Peg Kruse asked if approved for a license, would it serve more local or tourist traffic. Anne Miller stated it would likely be for more tourist orientated traffic. She noted they have recently contracted for private recycling and garbage pick-up service.
2. Cow & Quince, LLC: Lori Stein stated that they receive many requests for brunch related cocktail drinks. Similar to their food offerings, they would source locally for their craft cocktails, and would like to access Wisconsin based distilleries. She noted that they are also open Thursday and Friday nights, and one Saturday per month. She stated that it would not be a bar-type atmosphere, but rather people are expecting cocktail service in the evening. Lori Stein stated that they have been experimental with cocktail recipes with non-distilled products, within the context of their existing licenses.

3. Swiss Aire Motel, LLC: Eric Gobeli stated that the motel business is good, but would like to add a lounge area opening to the lobby, utilizing the two end rooms. He noted it would be a place for guests to unwind, as there are no other options along the highway area. He stated it would be an asset for that side of the community. Bar size would be approximately 750-1000 SF. He noted it would be open until 10PM on weekdays, and 12AM on weekends, and majority of the business would be tourists.
4. Parkside Development, LLC: Randy Dreger stated that for the banquet hall use proposed at the Lumberyard, it is tough to compete with other similar uses without a cash bar. It would be supported by a full-time staff, but not be a full-time bar. He stated it would be open for weddings, banquets, music, corporate events. Music and alcohol service would end by 11PM, closing the building by 12AM.

Eric Gobeli asked if there was an exemption for a Class B license for assembly halls with over 250 seating capacity. He also asked if there was an exemption for hotels with more than 66 rooms. Administrator Gadow stated he would research both questions.

Administrator Gadow asked Randy Dreger if he could utilize the alcohol catering licenses of those vendors that would cater the various events at the hall. Randy Dreger stated that his long term plan would be to have an option for the nearby Pork Shed restaurant to offer catering, which would require the Class B Liquor License for alcohol service.

The Committee discussed continuing the review of the applications until answers to the two license exemption questions could be determined.

Motion by Peg Kruse, second by Anthony Edge, to continue review of the application to a special Public Works/Public Safety Committee meeting to be scheduled at 3:30PM on Tuesday, September 19th in the Village Board Room. Motion carried. Administrator Gadow stated he would inform the applicants of the special meeting time.

General discussion by the Committee members on the Class B Liquor License guidelines ensued.

Chief Boldebeck discussed staffing comparisons with the Village of Belleville. Administrator Gadow noted that the Board should discuss an increase in fees and fines for various permits and tickets, given the current low amounts charged in comparison to adjacent communities. Anthony Edge asked Staff to compile comparisons of staffing levels and wages from other communities for Board review. Peg Kruse asked Staff to compile a list of fees for service that could be increased to generate additional revenue. Administrator Gadow stated that the full Board would review the draft 2018 Budget in early October.

General Discussion: Non-reserve Class B Liquor License Criteria: Administrator Gadow noted that the Village has received five (5) applications for two (2) available Class B Liquor Licenses, and that the Committee would review these license applications at their September meeting. The Committee reviewed example guideline and review criteria from Eau Claire, Oconomowoc, and Wausau. The members noted the criteria that they found relevant to New Glarus, and asked Staff to prepare a draft of guidelines for Village Board review and comment on September 5th. The Committee then discussed the proposed timeline for decision on the Liquor License applications, including Committee initial review on September 13th, with a potential special meeting on September 19th before making a recommendation to the Village Board for their September 19th meeting.

Public Works

Update: Utility Financials: The Committee reviewed the monthly Utility financials.

Discussion/Recommendation: Utility Bill Adjustment for 152 Valle Tell Dr: Public Works Director Jelle review the property owners request for an adjustment due to their high water and sewer usage without a second meter. Director Jelle noted that the 2nd meter has now been installed, and that it has been the Village's past practice, with similar requests, to deny the claim based on Public Service Commission regulations. He noted four other requests for adjustments had been reviewed and denied by the Board in the past two years. Anthony Edge suggested that language could be added to the building permit and water service applications to inform residents about the availability of a 2nd meter. Motion by Anthony Edge to recommend denial of the claim for utility bill adjustment to the Village Board, second by Peg Kruse. Motion carried.

General Discussion: 2018 Public Works Budget: Director Jelle provided the Committee with an overview of the Department's 2018 budget requests, including Village Hall roof replacement, street maintenance projects, potential future street projects with necessary engineering design work needed in 2018, and utility capital projects. Update/Discussion: Phosphorous Operational Evaluation Study Update: Public Works Director Jelle provided an overview of Staff and Strand Associates' (the Village's engineering consultant) work to date on the Village's phosphorus output. He noted that the DNR is considering amending their regulations statewide, which would change the Village's allowed limit from 1.4 mg/L to 0.12 mg/L, which is a substantial decrease. Director Jelle discussed the three treatment options they are evaluating, including: additional filters, improvements to point source contributors (i.e. local farms), and buying/trading credits with the Madison Metropolitan Sewer District. He noted that the Village's industrial users are actually doing a very good job of controlling the amount of phosphorus that they pass into the Village's waste water treatment system. The Committee discussed the financial impact of the potential DNR rule change, and potential upgrades to the Village's system to meet the new regulations. Director Jelle updated the Committee on an algae treatment pilot program that the Village of Monticello is conducting, and stated he would keep the Committee informed about the results.

Update/Discussion: Alliant Energy Substation Project Update: Public Works Director Jelle updated the Committee on the work completed to date on the potential acquisition of the Alliant substation. He noted that Staff and Forster Electrical Engineering (the Village's consultant) recommend Scenario 2, which requires a \$2 million investment from the Village, but means that the Village and Alliant would provide mutual back up to the electrical system, and receive a higher payment in lieu of taxes (PILOT) from Alliant. He noted that this option would include removal of the existing downtown substation near Hwy 69, and relocation of the equipment to the Village's WWTP. Director Jelle stated that if no action is taken, then the Village's assigned payments to Alliant would increase from \$54,495 to approximately \$265,672 in the coming years. The Committee discussed the potential financing of this option, noting that a rate case study would be likely in the next year. Director Jelle indicated that he would next brief the full Village Board on work completed to date, and ask for formal action from the Village Board on which option to pursue in early fall.

Adjournment: Being that all agenda items were completed, the Committee adjourned at 8:02pm.

Update: Revisions to Village Noise Ordinance: Administrator Gadow discussed recently received complaints regarding construction noise in the community. He indicated he would review other communities' ordinances and provide recommendations on if any modifications were needed to the Village's ordinance.

Update: ATV Ordinance: Administrator Gadow reviewed the Town of New Glarus' recent public hearing on the proposal for an ATV trail from Blachardville to the Town and Village of New Glarus. He noted that the Town voted against approving authorization of Town roads for the trail, thus at this time, the Village did not need to take any further action.

Update: Authorization for 2017 Utility Capital Equipment Purchases: Public Works Director Jelle reviewed the received bids of the updates to the Waste Water Treatment Plant Supervisory Control and Data Acquisition (SCADA) System. The bid for the SCADA System came back at \$28,790, versus an estimate of \$28,000. The bid would be sent to the full Board for review and approval.

Discussion/Recommendation: 2017 Street Maintenance Project List: Public Works Director Jelle reviewed the proposed street maintenance list for 2017, noting that the proposed 12 projects would be \$50,392. He noted that 2017 Capital Fund has \$35,000 allocated for Street Maintenance, which would leave a funding gap of \$14,644.

Administrator Gadow noted that the Committee and Village Board have two options:

- 1) Option 1: Utilize all \$35,000 in Capital Fund for Street Maintenance, and remove \$14,644 in project costs off of 2017 Street Maintenance list to meet budget. The removed \$14,644 in street maintenance projects would be moved to the 2018 Street Maintenance list for future consideration.
- 2) Option 2) Utilize all \$35,000 in Capital Fund for Street Maintenance and draw \$14,644 from Street Sinking Fund to fund remaining 2017 Street Maintenance projects. The Street Sinking Fund has a current balance of \$28,764.25 and if \$14,644 were to be drawn down, the remaining balance in the sinking fund would be \$14,120.25.

The Committee discussed both options, including the financial impact of using sinking funds versus delaying certain street maintenance projects to future years. Committee members noted that these projects will become more expensive if the Village continues to wait. Motion by Denise Wright to recommend Option #2 to the Village Board, second by Anthony Edge. Motion carried.

Adjournment: Motion by Anthony Edge to adjourn, second by Denise Wright. Motion carried. Meeting adjourned at 8:11pm.

Administrator Gadow reviewed why each of these items were coming up for replacement or purchases, and noted that Staff was only looking for authorization to bid out these items at this time. Administrator Gadow stated that the funds for purchasing these items would come from the Utility Capital accounts (Funds 40, 45, and 50) and not the General Fund (Fund 60). He also noted that Staff would present the received cost bids to the Village Board for approval prior to finalizing the purchase of the equipment. Update: Utility Financials: The Committee reviewed the monthly utility financial reports.

Discussion/Recommendation: Stormwater Utility Fee for 2017: Administrator Gadow reviewed the information that was discussed at the December 14, 2016 meeting, stated that annually the Village Board sets the Equivalent Runoff Unit (ERU) fee. Since the fee was established in 2006, the Village has not adjusted the rate of \$4.85 per ERU per month. He stated that in reviewing the financials with the Village's engineers, the current rate is causing expenses to outweigh revenue coming in. This is due in part to the Village completing road projects in the past few years that have included a stormwater infrastructure component. Administrator Gadow stated that the Village Board will need to consider increasing the ERU, and that for revenues to cover expenses, the rate would need to be \$7.51 per ERU. However, he noted that it is not a realistic expectation for customers to have to adjust to a \$7.51 ERU rate in one year. Administrator Gadow noted that the Village will likely have to consider a step increase in the fee over the coming years. The Committee discussed the possibility of a \$1.00 per ERU increase. Motion by Peg Kruse to recommend Village Board approval of Resolution 17-04, raising the ERU fee \$1.00, from \$4.85 per ERU per unit to \$5.85 per ERU per month, second by Denise Anton Wright. Motion carried.

Adjournment: Motion by Peg Kruse to adjourn, second by Denise Anton Wright. Motion carried. Time: 7:18 p.m.
