General Discussion/Recommendation on TIF Assistance Package for Lumberyard Property project:

Administrator Gadow provided a recap of the CDA's October 24th discussion on a potential TIF assistance package for the Lumberyard project. He noted that the Committee's direction was to recommend a \$45,000 assistance package, in a "pay-as-you-go" format, with payments made as the value of the property increases. Based upon analysis from the Village's TIF Consultant, MSA Professional Services, the payments would be approximately \$6,500 for a period of 6 years. Administrator Gadow described the draft Development Agreement which included a minimum assessment agreement with the property owner, and rights for the Village to utilize the site's parking spaces when the facility was not in use. He noted that if the CDA agreed with this package, it would be forwarded to the Village Board for their consideration. Dave Wytttenbach asked what recourse there would be if the property did not meet the minimum assessment. Administrator Gadow stated that the Development Agreement contained a provision that the TIF assistance would be required to be paid back to the Village if the minimum assessment was not met. Mike Johnson stated that he was comfortable with the developer coming back for an additional request if the utility costs would be higher than anticipated. Dave Wytttenbach asked if flood insurance or a flood map amendment would be needed. Administrator Gadow stated that still needed to be worked out. Motion by Dave Wytttenbach to recommend approval of the TIF assistance package of \$45,000 and the draft Development Agreement to the Village Board, second by Keith Peterson. Motion carried with Mike Johnson abstaining (due to his role as Green County Development Corporation Executive Director).

The Committee discussed the following list of questions:

- Basic Data Questions

- Any reasons why New Glarus may not be a location considered for future expansion?
- Are you aware of the Village's tools to help businesses grow? (i.e. RLF, etc.)

- Level of satisfaction with Village services
- Immediate business needs or concerns?
- Community strengths and weakness
- What initiatives can the CDA and/or Village be doing to support or enhance the business?
- Follow up meeting needed – Yes/No?

Dave Wytttenbach asked what the priority listing was for scheduling visits. Administrator Gadow recommended a three tier approach: 1) Major employers (i.e. LSI, Brewery, etc.); 2) Industrial Park tenants; and 3) Downtown core businesses. Administrator Gadow stated that he would draft up a survey form, a pre-survey explanation letter, and start working on a schedule of visits based on those three tiers.

He noted that the Chamber handles tourism well, but the community needs a business coordinator to handle the business development responsibilities that the Chamber is not focused on. He also noted that issues with a dedicated festival space in downtown, as certain businesses want the festivals to remain on 1st Street and other want them removed. Keith Peterson brought out the topic of millennials referenced in Chapter 3. He asked how we get messages out to the community, particularly to this demographic.
